

STUDENT WELLNESS

The Governing Board recognizes the link between student health and learning and desires to provide a comprehensive program promoting healthy eating and physical activity for district students. The Superintendent or designee shall coordinate and align district efforts to support student wellness through health education, physical education and activity, health services, nutrition services, psychological and counseling services, and a safe and healthy school environment. In addition, the Superintendent or designee shall develop strategies for promoting staff wellness and for involving parents/guardians and the community in reinforcing students' understanding and appreciation of the importance of a healthy lifestyle.

School Health Council/Committee

The Superintendent or designee shall encourage parents/guardians, students, food service employees, physical education teachers, school health professionals, Board members, school administrators, and members of the public to participate in the development, implementation, periodic review, and update of the district's student wellness policy. (42 USC 1758b)

To fulfill this requirement, the Superintendent or designee may appoint a school health council or other district committee whose membership shall include representatives of these groups. He/she also may invite participation of other groups or individuals, such as health educators, curriculum directors, counselors, before- and after-school program staff, health practitioners, and/or others interested in school health issues.

Goals for Nutrition, Physical Activity, and Other Wellness Activities

The Board shall adopt goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. (42 USC 1758b)

The district's nutrition education and physical activity programs shall be based on research, shall be consistent with the expectations established in the state's curriculum frameworks and content standards, and shall be designed to build the skills and knowledge that all students need to maintain a healthy lifestyle.

The nutrition education program shall include, but not be limited to, information about the benefits of healthy eating for learning, disease prevention, weight, and oral health. Nutrition education shall be integrated into other academic subjects in the regular educational program.

To reinforce the district's nutrition education program, the Board prohibits the marketing and advertising of non-nutritious foods and beverages through signage, vending machine fronts, logos, scoreboards (unless part of a leased facility), school supplies, advertisements in school publications, coupon or incentive programs, free give-aways, or other mean

STUDENT WELLNESS (continued)

BP 5030(b)

All students shall be provided opportunities to be physically active on a regular basis. Opportunities for moderate to vigorous physical activity shall be provided through physical education and recess and may also be provided through school athletic programs, extracurricular programs, before- and after-school programs, programs encouraging students to walk or bicycle to and from school, in-class physical activity breaks, and other structured and unstructured activities.

The Board may enter into a joint use agreement or memorandum of understanding to make district facilities or grounds available for recreational or sports activities outside the school day and/or to use community facilities to expand students' access to opportunity for physical activity.

Professional development shall be regularly offered to food services staff, and other staff as appropriate to enhance their health knowledge and skills.

The Superintendent or designee may disseminate health information and/or the district's student wellness policy to parents/guardians through district or school newsletters, handouts, parent/guardian meetings, district and school web sites, and other communications. Outreach to parents/guardians shall emphasize the relationship between student health and academic performance.

In order to ensure that students have access to comprehensive health services, the district may provide access to health services at or near district schools and/or may provide referrals to community resources.

The Board recognizes that a safe, positive school environment is also conducive to students' physical and mental health and thus prohibits bullying and harassment of all students, including bullying on the basis of weight or health condition.

The Superintendent or designee shall encourage staff to serve as positive role models for healthy eating and physical fitness.

Nutritional Guidelines for Foods Available at School

For all foods available on each campus during the school day, the district shall adopt nutritional guidelines which are consistent with 42 USC 1773 and 1779 and federal regulations and which support the objectives of promoting student health and reducing childhood obesity. (42 USC 1758b)

In order to maximize the district's ability to provide nutritious meals and snacks, all district schools shall participate in National School Lunch.

The Superintendent or designee shall provide access to free, potable water during meal times in the food service area in accordance with Education Code 38086 and 42 USC 1758, and shall encourage students' consumption of water by educating them about the health benefits of water and serving water in an appealing manner.

STUDENT WELLNESS (continued)

BP 5030(j)

The Board believes that all foods and beverages sold to students at district schools, including those available outside the district's food services program, should support the health curriculum and promote optimal health. Nutritional standards adopted by the district for foods and beverages provided through student stores, vending machines, or other venues shall meet or exceed state and federal nutritional standards.

The Superintendent or designee shall encourage school organizations to use healthy food items or non-food items for fundraising purposes. He/she also shall encourage school staff to avoid the use of non-nutritious foods as a reward for students' academic performance, accomplishments, or classroom behavior.

School staff shall encourage parents/guardians or other volunteers to support the district's nutrition education program by considering nutritional quality when selecting any snacks which they may donate for occasional class parties. Class parties or celebrations shall be held after the lunch period when possible.

Program Implementation and Evaluation

The Superintendent shall designate one or more district or school employees, as appropriate, to ensure that each school site complies with this policy. (42 USC 1758b)

The Superintendent or designee shall assess the implementation and effectiveness of this policy at least once every two years.

The assessment shall include the extent to which district schools are in compliance with this policy, the extent to which this policy compares to model wellness policies available from the U.S. Department of Agriculture, and a description of the progress made in attaining the goals of the wellness policy. (42 USC 1758b)

The Board and the Superintendent or designee shall establish indicators that will be used to measure the implementation and effectiveness of the district activities related to student wellness. Such indicators may include, but not be limited to:

1. Descriptions of the district's nutrition education, physical education, and health education curricula and the extent to which they align with state academic content standards and legal requirements.
2. Student participation rates in all school meal and/or snack programs, including the number of students enrolled in the free and reduced-price meals program compared to the number of students eligible for that program.
3. Extent to which foods sold on campus outside the food services program, such as through vending machines, student stores, or fundraisers, comply with nutritional standards.
4. Results of the state's physical fitness test at applicable grade levels.
5. Number of minutes of physical education offered at each grade span, and the estimated

percentage of class time spent in moderate to vigorous physical activity.

BP 5030(d)

6. A description of district efforts to provide additional opportunities for physical activity outside of the physical education program.

7. A description of other districtwide or school-based wellness activities offered, including the number of sites and/or students participating, as appropriate.

The Superintendent or designee shall invite feedback on district and school wellness activities from food service personnel, school administrators, the school health council, parents/guardians, students, teachers, before- and after-school program staff, and/or other appropriate persons.

As feasible, the assessment report may include a comparison of results across multiple years, a comparison of district data with county, statewide, or national data, and/or a comparison of wellness data with other student outcomes such as academic indicators or student discipline rates.

The Superintendent or designee shall inform and update the public, including parents/guardians, students, and others in the community, about the content and implementation of this policy and assessment results. (42 USC 1758b)

In addition, the assessment results shall be submitted to the Board for the purposes of evaluating policy and practice, recognizing accomplishments, and making policy adjustments as needed to focus district resources and efforts on actions that are most likely to make a positive impact on student health and achievement.

The Superintendent designates the individual(s) identified below as the individual(s) responsible for ensuring that each school site complies with the district's wellness policy. (42 USC 1758b; 7 CFR 210.31)

Wellness Policy Triennial Assessment

June 2023

What is a local school wellness policy?

A local school wellness policy (“wellness policy”) is a written document that guides a local educational agency’s (LEA) or school district’s efforts to establish a school environment that promotes students’ health, well-being, and ability to learn.

The wellness policy requirement was established by the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Reauthorization Act of 2004 and further strengthened by the Healthy, Hunger-Free Kids Act of 2010 (HHFKA). It requires each LEA participating in the National School Lunch Program and/or School Breakfast Program to develop a wellness policy. The final rule expands the requirements to strengthen policies and increase transparency. The responsibility for developing, implementing, and evaluating a wellness policy is placed at the local level, so the unique needs of each school under the LEA’s jurisdiction can be addressed.

What must the school wellness policy address?

At a minimum, policies are required to include:

- **Specific goals** for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. LEAs are required to review and consider evidence-based strategies in determining these goals.
- **Standards and nutrition guidelines for all foods and beverages** sold to students on the school campus during the school day that are consistent with federal regulations for:
 - School meal nutrition standards, and the
 - Smart Snacks in School nutrition standards.
- **Standards for all foods and beverages provided, but not sold, to students** during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- **Policies for food and beverage marketing** that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- **Description of public involvement, public updates, policy leadership, and evaluation plan.**

What is the triennial school wellness policy assessment?

The final rule requires state agencies to assess compliance with the wellness policy requirements as a part of the general areas of the administrative review every three years. LEAs must conduct an assessment of the wellness policy every three years, at a minimum. This assessment determines:

- Compliance with the wellness policy,
- How the wellness policy compares to model wellness policies, and
- Progress made in attaining the goals of the wellness policy.

Compliance With the Wellness Policy

Compliance to the Local School Wellness Policy, Under the Healthy, Hunger-Free Kids Act of 2010, was made utilizing the WellSAT 3.0. WellSAT 3.0 is a quantitative assessment tool to aid in scoring and improving local School Wellness Policies. All WellSAT 3.0 items reflect Federal Law and/or best practices. The purpose of scoring our district policy is to identify its strengths and areas that can be improved upon.
